

Jayhawk Software Secure Online Data Storage Solution

Online Data Storage

With Jayhawk Software's Online Data Storage you can easily upload your data to our secure website via the Internet to obtain off-site data storage. The backup can be scheduled to run automatically and the program has the flexibility to allow individual files to be uploaded within the web viewer.

By transferring data to the secure site, you receive the following benefits:

- Ability to review backed up files
- Perform unattended backups
- Prevent data loss with tape failures
- Data stored off-premise
- Easily restore data
